

3/28 proteasome core complex

15/108 peptidase complex

17/90 protein acetyltransferase complex

27/178 obsolete intrinsic component of endoplasmic reticulum m

19/79 endoplasmic reticulum-Golgi intermediate compartment

7/22 thylakoid

16/85 plastid

9/50 plasmodesma

5/21 fungal-type cell wall

11/53 cell wall

53/222 external encapsulating structure

5/68 ciliary tip

81/428 cilium

16/105 ciliary basal body

35/205 motile cilium

37/262 plasma membrane bounded cell projection cytoplasm

13/92 dynein complex

6/41 kinesin complex

131/766 microtubule cytoskeleton

3/10 phragmoplast

1/11 mitotic spindle pole body

14/44 muscle tendon junction

32/128 ruffle

7/28 chaperone complex

5/27 MCM complex

8/36 organellar small ribosomal subunit

14/83 organellar ribosome

59/160 small ribosomal subunit

28/125 oxidoreductase complex

4/12 succinate dehydrogenase complex

5/19 ribonucleoside-diphosphate reductase complex

5/7 amino acid transport complex
